FREE
YOUR LIFE
FROM
PAIN AND
ILLNESS

What would it be worth to you to be healthy and pain free?

Imagine your life without chronic pain, dependency on pharmaceuticals or heavy emotional baggage. Everyone has the capability to live a positive, healthy life. Most of us could use some help to do this better.

I understand, from personal experience, what life is like with chronic ailments. During my own healing process I discovered my gift for intuitive energy healing. This is the tool I use to bring rapid change and well being into the lives of my clients.

Pain and illness are warning signals that can be listened to and learned from in order to eliminate them. My abilities allow me to see, hear and feel these signals and clear the way for healthy and more vibrant energy. Even after just one session, many clients not only feel physically better, but also discover a sense of self worth that is instrumental in maintaining a lifetime of health.

My Story.

For more than six years, I suffered from unexplainable allergies to most foods and many everyday elements. I went from doctors to chiropractors to

nutritionists for years hoping they could cure me of the debilitating migraines and body pain I couldn't escape.

Unable to work, 35 pounds underweight, and using supplemental oxygen I was told by my doctors they could do nothing more for me. They sent me home to prepare for my certain death. With little to lose, I read everything I could find about my condition. It was then that I met a profound healer and teacher.

"Advanced energy work saved me from a life of pain and certain death."

Joe Petroski

I experienced a healing so rapid and complete that I took his words to heart when he told me, "You can do this, too."

My calling to help heal those in need is the end of my journey from illness to health. I now look forward to a long, happy, healthy, and useful life as a teacher and facilitator of this powerful and empowering healing art.

"You can achieve a pain free life."

People share how their lives have been changed through energy work.

"One session with Joe and I am able to eat anything and everything with no headaches, no getting sick. I have more energy and a clearer mind." JH

"Without a doubt Joe's work on my shoulder has been very effective and I love him for it. It convinced me that this method really works. Without Joe and his help I would still be in pain." Love Kat

"Crystal now has full use of her hand and all nerves appear to be fully healed. I don't know what caused the change, but I believe that Joe has a special ability to unleash the natural healing powers of the body." P.S.
